

PUBLIC NOTICE

As the weather becomes milder, the Town would like to remind residents to avoid raking their yard waste into the streets.

Piled leaves on streets can create safety concerns and accumulate in low places causing drainage systems, such as catch basins, to become clogged.

Users of the Town Residential Waste Collection may place small amounts of leaves and yard waste into their Green Bin for regular curbside collection.

Piles of branches/limbs and bags of leaves will not be picked up curbside unless placed in your Green Bin.

Larger amounts, up to ½ ton of leaves, branches no more than 2 inches in diameter, and other yard waste may be dropped off to Eastern Sanitation Ltd. on Adam Street during regular business hours.

The Town would like to thank residents in advance for their cooperation.
